OUTREACH PROGRAM

Consistent with Board Policy 6380, the San José-Evergreen Community College District takes steps to encourage qualified businesses (small, local, or owned by women, minorities, veterans, religious minorities, disabled individuals, members of the LGBTQIA community, or other underrepresented groups) to participate in Measure G 2010 and Measure X Bond Programs' construction projects at the prime contractor and subcontractor level, in purchasing projects, and as suppliers.

The District's Outreach Program has a combined goal of 25% participation from small and local businesses, and achieve anticipated results for businesses with one or more of the following characteristics: owned by women (4%), minorities (8%), veterans (1%), religious minorities, disabled individuals, members of the LGBTQIA community, or other underrepresented groups for these projects. The District will always strive to meet or exceed the combined goal of 25% participation for small and local businesses. There will be no reduction in outreach effort once the 25% combined goal is achieved.

In addition, the District's Outreach Program will achieve an anticipated result of 8% for minority-owned business enterprises (MBEs), 4% for women-owned business enterprises (WBEs), and 1% for veteran business enterprises (VBE). There will be no reduction in outreach effort once these anticipated results are achieved. The Program also seeks to eliminate barriers that impede equal opportunity of certified and noncertified minority-owned business enterprises (MBEs) and women-owned business enterprises (WBEs).

The Program states that an anticipated result—but not a required goal—of its outreach and inclusion efforts to all businesses with one or more of the following characteristics: owned by women, minorities, veterans, religious minorities, disabled individuals, members of the LGBTQIA community, or other underrepresented groups, will be the increased participation of these business enterprises. The Program will gather data including the participation of WBEs and MBEs and reexamine its outreach practices if increased participation is not being achieved.
