Position: Instructional Support Coordinator

Department: Academic Affairs

Location: EVC or SJCC

Date: July 28, 2022

POSITION PURPOSE

Under the general direction of a Dean or assigned administrator, the Instructional Support Coordinator coordinates and supports instructional programs operating typically out of an instructional lab. Responsibilities include being the primary individual responsible for carrying out the administrative aspects of the program. Administrative duties include activities such as hiring and scheduling of student help, report writing, and budget management. Position also includes providing direct instructional support, conducting class demonstrations and delivering workshops or presentations related to program learning objectives.

KEY DUTIES AND RESPONSIBILITIES:

Administrative

1. Coordinate and ensure the ongoing successful operation of instructional program including a combination of instructional support and administrative activities.
2. Track budget expenses for program working closely with faculty and the Dean to identify all related expenses and appropriate accounts.
3. Establish and maintain instructional support standards for student workers or tutors. May also include directing work of Instructional Support Assistants.
4. Identify part time staffing needs. Hire, schedule and train tutors and student help. Make hiring recommendations regarding other temporary employment needs.
5. Perform routine administrative functions related to data entry, filing and processing paperwork related to temporary employees and student use of the lab and classroom. Maintain and process attendance records for temporary employees. Ensure that student attendance is documented and entered onto a computer-aided timekeeping system.
6. Collect data related to program activity for reporting and budgeting purposes. Assist the Dean with preparation and administration of budgets governing the program and make budget recommendations.
7. Administer tests and quizzes in accordance with State regulations and college policies. Prepare testing schedules. Ensure security of test materials and maintain confidentiality with regard to student test-taking.
8. Monitor, maintain and order supplies as needed, and make purchase recommendations for equipment and instructional material needs.
9. Prepare a variety of statistical reports, forms and surveys.
10. Work with other staff and faculty to establish lab/classroom procedures.

Working with Students – Instructional Support

11. Provide one-on-one and small group instructional support to students at all levels within the college in either a classroom or lab setting. Reinforce and reintroduce information and materials presented in class or in self-paced modules and introduce alternative or expanded information to enhance student learning.

12. Working with instructors, design and deliver workshops and learning modules based on instructional objectives for students and possibly faculty and staff.
13. Work with students who learn at varying speeds to continually engage those moving more quickly as well as supporting those needing more time and assistance.
14. Working with instructors, demonstrate and assign appropriate drills and construct developmental models and projects for the lab or classroom, and as needed catered to particular student needs. May revise learning materials as needed.
15. Provide a variety of technologies and resources for students in addition to verbal assistance such as computer-assisted instruction and video/audio taped lectures.
16. Recognize when students are experiencing learning difficulties and present material using various approaches to identify what works for which students.
17. Refer students as appropriate to Disabled Students Programs and Service (DSP&S). Work with DSP&S to incorporate adaptive technologies and alternative learning exercises and approaches to increase student learning.
18. Provide referrals to and work closely with a variety of campus services designed to support and enhance learning opportunities for students.
19. Verify completion of student assignments and monitor student progress and attendance. Anticipate potential challenges that will face students relative to specific assignments based on particular needs including but not limited to learning styles, disability and students with English as a Second Language. Suggest strategies for students to overcome the challenges.
20. Analyze assignments from instructors within the discipline to help determine requirements. Evaluate student work for the assigned curriculum, and make determinations if assignment criteria, class grade level standards, and the other specific requirements established by instructors are met.
21. Work with Instructors to maintain up-to-date knowledge of teaching and learning theories and technologies, alternative learning materials, and computer applications pertinent to programs and services.
22. Consult reference works and/or perform internet searches to research concepts related to student assignments. Conduct searches as requested for learning materials in subject area.
23. Tutor and instruct students in learning and test-taking strategies (e.g., flash cards, study guides, and test-taking techniques).
24. Conduct assessments and recommend student level placement as needed.
25. Serve as a liaison between the student and instructors and tutors. Keep instructors apprised of student progress.

Technical Support – Use of Lab/Classroom and Equipment

26. Schedule and conduct orientations for assigned lab and/or classroom areas including instruction on use of equipment and procedures and provide continual monitoring for proper usage.
27. Provide ongoing technical assistance to students related to proper use of tutorial and laboratory equipment. Create supporting documentation as needed for use of lab/center services and computer equipment. Organize and maintain existing reference materials, and create answer

keys as needed.

Other

28. Perform other related duties as assigned.
